CHICAGO'S PIER A SHOW WINDOW OF MANY NATIONS

Second Annual Pageant of Progress
Sees Thirty Nations
Displaying Wares

CHICAGO, July 29.—Chicago's municipal pier, built for lake commerce and popular recreation will be turned into a vast show window today when the wares and inventions of 30 nations will be exhibited. It is the opening day of the second annual Pageant of Progress.

The long arm of brick and steel which reaches three-quarters of a mile into Lake Michigan will be studded with a thousand booths, showing the progress made in every line from radio and farm machinery, to pencils and kitchen ware. The progress made in these lines will be emphasized.

The vast auditorium, which is always kept cool by lake breezes, will house a radio congress, for the youths; a business show for men, and a fashion parade for the women.

Nationally known experts will discuss recent discoveries in voice transmission at the first named, and there will be both popular and scientific discussions of the subject. While the women folk are inspecting the latest styles worn by the models in the fashion parade, the head of the family can attend a discussion of modern business methods, waste elimination schemes and see new office devices demonstrated.

If the daughter of the family is known locally for her beauty, she has a chance to have it nationally recognized in the selection of "Miss America." She is to be the most typical American girl at the pageant. Many cities have promised to send entrants for this event. Each will be known before the decision is made by the prefix "Miss" and the name of the city she represents.

The business and commercial side of the pageant will not be over emphasized for there will be many parades, athletic and aquatic events, including hydroplane, swimming and boat races.

TENNESSEE TO HAVE PRIMARY NEXT THURSDAY

Much Interest Centers in Outcome
of Election of Both
Republicans-Democrats

NASHVILLE, June 29.—National interest centers in the outcome of the democratic and republican primaries in Tennessee on Thursday next, August 3rd, when the party standard bearers for the November contest will be chosen.

The selection of the party nominees will precede the first test party strength in the state since Tennessee broke away from the democratic "solid south" two years ago and gave its electoral vote to President Harding and elected a republican governor. The candidacies of Cordell Hull, the democratic national chairman, and Fenis J. Garrett, acting democratic house leader, have focused the eyes of party leaders in other states on the result in Tennessee. A United States senator, governor, members of the legislature, 10 members of congress and a member of the railroad commission are to be selected in November.

United States Senator K. D. McKellar is opposed for re-nomination on the democratic ticket by Capt. G. T. Fitzhugh of Memphis, former Representative T. W. Simms, of Lexington, and Noah W. Cooper, of Nashville. Senator McKellar is asking for another term on his record, which Captain Fitzhugh's attacking Mr. Simms is urging acquittal by the government of real estate now owned by the railroads and its lease to the operating companies, while Mr. Cooper is known as an advocate of strict enforcement of Sunday "blue laws."

Cordell Hull, who went down to defeat in the republican landslide of 1920, is unopposed for the democratic nomination for congress in the fourth district. He will oppose Representative Clouse, republican, who beat him two years ago.

REINSMEN OF OHIO PREPARE FOR MEET

TOLEDO, July 29.—Horsemen are looking for some record performances by the harness when, for the second time this year, the Grand Circuit reinmen invade the Port Miami track here for five days next week.

The first week the Port Miami track was in existence, during the summer of 1918, Single G, set a world record by pacing three heats all under two minutes. It has been seldom that a Grand Circuit meeting has been held here when records have not fallen, and this year has been no exception. During the opening meet this year, Margaret Dillon, driven by Tommy Murphy, paced the three fastest heats ever negotiated by a mare, and also set a season's speed record by going the second mile in two minutes flat.

The Matron stake, one of the richest events on the Grand Circuit, will feature next week's meet. It will be raced August 1, and will be worth approximately \$8500. The event is for 3-year-old trotters, and is one of the few futurities decided on the Grand Circuit.

Twenty-one events will be run off during the five days program, and approximately \$45,000 in prize money will be divided among the winners in the various events.

Livingston Boockman, both originally from New York, who live next door to each other along the ocean front of Newport, and who have hounded over ten years and on the polo field, promises to be the feature of the approaching political campaign in this state. Mr. Gerry, who is a son of Commodore Elbridge Gerry of New York, captured a senate seat from Henry L. Lippitt in 1916. He is a democrat, while Mr. Boockman, who will oppose him as the republican candidate, served his novitiate in politics as a state representative from Newport, and finally as governor.

There are no primaries in Rhode Island. Both parties will hold their conventions early in October. While the senatorial nominations are virtually conceded, the rest of both tickets from governor down is in doubt. Prohibition enforcement and the long textile strike have aroused some antagonism within the republican party, which today had all the state officers. Governor Emery J. San Souel is expected to be a candidate for a second nomination.

FREMANTLE, Australia, June 30.—(Associated Press by Mail.)—Home rule for India, with Dominion status, is the objective of the Indian people, according to Mrs. Annie Besant, the well known Theosophist leader, who arrived here recently.

In the course of an interview Mrs. Besant said everything would be well in India, she thought, if Britain only would grant the country home rule.

The people, since Gandhi's imprisonment, were beginning to appreciate that he was not the Divine Being, able to work miracles, which they believed him to be.
